ENJOY YOUR CUP OF COFFEE

Our story

How we got our start?

In 2016 "Star Coffee" was founded to support the community of java lovers that we've grown to admire. For professional culinary grade equipment, boutique cafes, and home consumers, the market was flooded with accessories designed and sold by the lowest bidder... not coffee experts. We fixed that.

What makes our product unique?

It's no secret the world is obsessed with coffee. We totally understand! From baristas, to cafe owners, and especially every-day drinkers like you, the accessories you want and need will quickly become prominent fixtures in your home or business. Our standard of quality is second to none.

Why we love what we do?

Having an expert support team you can trust behind the brand already makes "Star Coffee" proud to serve our customers. What we love is the curation process. Each and every piece of equipment is chosen for design, durability, style, and adding a tactful flavor to your coffee nook.
